

Physician Alert

March 30, 2015

IMMUNOLOGY TURN-AROUND TIMES

Due to a severe staff shortage, turn-around times for immunology tests performed at the HSC site will be prolonged.

The delay impacts monoclonal protein investigation predominantly. Efforts are on-going to palliate the situation within the next few days.

Please contact the Hematopathologist on service or the Immunology Laboratory (204-787-1986) regarding samples that may need prioritization for urgent clinical reasons.

Thank you for your patience and understanding.

Carmen Morales, MS, MD, FRCP
