

Expiration of SurePath Collection Vials for Pap Tests

Date Issued: May 4, 2017

Please be advised that a series of SurePath collection vials expired on **January 31, 2017**.

Please verify that you do not have any expired vials in your clinics or laboratories. If you do, please pack up the expired vials and send back to your referral cytology laboratory and label the package as Expired Vials.

Any Pap tests received in expired vials will be rejected.

Please contact your referral cytology laboratory to order new supplies as per DSM Policy #170-10-19.

If you have any questions please contact:
