

TRANSFUSION MEDICINE

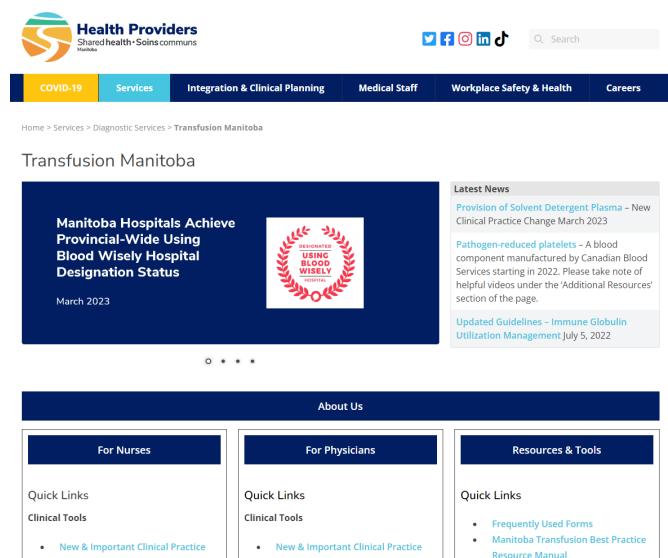

Transfusion Information for Health Providers has Moved to healthproviders.sharedhealthmb.ca

Date Issued: May 10, 2023

Transfusion and blood related information for Manitoba health-care providers has moved from bestbloodmanitoba.ca to Shared Health's Manitoba health provider resource website healthproviders.sharedhealthmb.ca.

You can find the new Transfusion Manitoba section under Services and Diagnostic Services. The revised pages have updated information including practices and guidelines as well as highlighted news and a resource library. Anyone visiting the old website bestbloodmanitoba.ca will be rerouted to the new pages.

References/Resources:

The screenshot shows the 'Health Providers' website interface. At the top, there is a navigation bar with 'COVID-19' highlighted in yellow, followed by 'Services', 'Integration & Clinical Planning', 'Medical Staff', 'Workplace Safety & Health', and 'Careers'. Below the navigation bar, the breadcrumb trail reads 'Home > Services > Diagnostic Services > Transfusion Manitoba'. The main content area is titled 'Transfusion Manitoba' and features a large blue banner with the text 'Manitoba Hospitals Achieve Provincial-Wide Using Blood Wisely Hospital Designation Status' and 'March 2023'. To the right of the banner is a 'Latest News' section with three items: 'Provision of Solvent Detergent Plasma - New Clinical Practice Change March 2023', 'Pathogen-reduced platelets - A blood component manufactured by Canadian Blood Services starting in 2022. Please take note of helpful videos under the 'Additional Resources' section of the page.', and 'Updated Guidelines - Immune Globulin Utilization Management July 5, 2022'. Below the banner and news section is an 'About Us' section with three columns: 'For Nurses', 'For Physicians', and 'Resources & Tools'. Each column contains 'Quick Links' and 'Clinical Tools' sections, with 'New & Important Clinical Practice' links in each.
