

Breast Benchmark Targets

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13
PC P	Mammogram +/- Ultrasound (7 days)	Biopsy (14 days)	Full Pathology Reporting/Surgical Consult appt (14 days)	First Surgery (30 days)				Post-op Appointment (21 days)				Referral to Medical and Radiation Oncology & Staging Scans	
				Neoadjuvant Consult & Staging Scans (14 days for scans)		Surgical Discussion scheduled at end of Neoadjuvant treatment							

← 60 Days →

Breast Cancer Diagnostic & Surgery Pathway	Timeline
1. Primary care orders diagnostic imaging or refers to diagnostic specialist	Within 1 day of patient visit
2. Diagnostic Mammogram / Ultrasound	Within 7 days of ordered test
3. Biopsy	Within 14 days of mammogram / ultrasound
4. Full Pathology Reporting / Surgical Consultation	Within 14 days of biopsy
5. a) First Surgery	Within 24 - 30 days
5. b) Neoadjuvant Consult & Staging Scans	Within 14 days of Surgical Consult
6. Referral to Medical and/or Radiation Oncology for Adjuvant treatment	At Post-op appointment

Benchmark targets are what we strive to achieve and what we measure against. They are not guaranteed wait times. Specific patient factors may require longer timelines at any point along the pathway and system delays may be encountered.
