<b>Disinfectant Contingency Process/Guideline</b>		Page 1 of 1

## Disinfectant Contingency Process/Guideline

This process/guideline is to be used to assess and prioritize disinfectants when supply chain issues arise.

Refer to Shared Health Resources and Guides: Facility Approved Disinfectants-July 10, 2020 for approved general use disinfectant list (products numbered 1 to 6). Available at: <https://sharedhealthmb.ca/covid19/providers/ipc-resources/>

### Procedure:

Step	Thresholds/Triggers
1	Procurement/Supply Chain/Materials Management will determine on an ongoing basis specific thresholds/triggers to determine which steps/disinfectants will be used: <ul style="list-style-type: none"> <li>• This will be determined by stock in the warehouse, what is expected to be received and discussions with the vendor/supplier.</li> <li>• This will be communicated to key individuals within the organization to determine steps/process.</li> </ul>

Step	Shortages
2	If a shortage occurs of Accel Intervention RTU Wipes, Oxivir TB RTU Liquid will be used with Dry Wipe System. Refer to Standard Operating Procedure (SOP): Accelerated Hydrogen Peroxide Dry Wipe System. Available at: <a href="https://sharedhealthmb.ca/files/ahp-reusable-system-sop.pdf">https://sharedhealthmb.ca/files/ahp-reusable-system-sop.pdf</a> <ul style="list-style-type: none"> <li>• Sites to begin saving 1 litre bottles of Accel Intervention and Oxivir TB for possible decanting from larger containers into 1 litre bottles. A notification will be sent out to start this process.</li> <li>• Sites to begin to reprocessing 1 litre bottles and decant from larger containers into 1 litre bottles, depending on threshold/triggers. A notification will be sent out to start this process.</li> <li>• Sites to begin consideration of Prevention RTU Wipes and/or Liquid or Oxivir Plus to be used in specific areas.               <ul style="list-style-type: none"> <li>○ This will require a multi-disciplinary team that includes, but not limited to:                   <ul style="list-style-type: none"> <li>▪ Infection Prevention and Control</li> <li>▪ Facility Management</li> <li>▪ Materials Management</li> <li>▪ Logistic Services</li> </ul> </li> <li>○ Areas to consider would be conference/meeting rooms, staff rooms, public corridors, offices</li> </ul> </li> <li>• The following cloths can be used with liquid product. Selection should be appropriate to the setting (e.g. laundered, disposable):               <ul style="list-style-type: none"> <li>○ Microfibre, cotton cloths, j-cloths, paper towel</li> </ul> </li> </ul> <p>*If shortages continue, alternative disinfectants may need to be considered (e.g. alternative AHP products).</p>
