

Implementation of Revised Provincial Form Version 2 – Endoscopy Intake Referral Form - Adult

Date effective: May 16, 2022

Please be advised that the previously released **Provincial Endoscopy Intake Referral Form** has been revised to incorporate the following changes:

- Title of form changed to “Endoscopy Intake Referral Form – Adult”
- In addressograph area, added patient demographic information required
- Under Appointment Considerations, Patient Needs, added: "Other (e.g. Healthcare Proxy, Escort): (specify) _____”
- Under Semi-urgent, Unexplained Iron Deficiency Anemia, added option to order “Ferritin”
- Other formatting and abbreviation changes have been incorporated

The updated forms can be found on [Shared Health Provincial Clinical Project Standards](#)

This form is also being provided to the EMR vendors and they have been requested to develop it for you to download. Please check with your EMR vendor to assist you in finding this form.

Important Changes/ Reminders:

- Requisitions are owned and document controlled by Shared Health and cannot be altered for site specific use unless approved by Shared Health.
- Requisitions have been sent to the EMR vendors and print shops. Contact them for assistance if needed.
- We recognize that this represents a significant change. We value your feedback and will be evaluating the impact of the change. Please send feedback to SHQualityImprovement@sharedhealthmb.ca

Action Required

- When a new form version completely replaces an old, delete prior versions from your EMR.
- **Please begin using these new forms as of May 16 2022.**
