SWIM – Access to Care

Find a Procedure

Quick Reference Guide

Locate a procedure using Search or Drop-Down lists.

SEARCH	
1. Open the Search for a procedure window	On the Add Patient screen, • In the Procedure section, click Search Procedure 1: * Search QuickPick
2. Enter search criteria	 Enter a keyword, partial word or procedure code Select the desired Search by option Description – text based procedures Code – SIMS procedure code Select the desired Search in option Short List – includes only procedures for the service Full List – includes all services' procedures Click Search Search for a Procedure Search for a Procedure Search in estimation of the service of
3. Select from list	 From the list of possible procedure matches, find the most appropriate procedure Click Select. If there is no match, the search criteria may be too specific. Click Back to return to the search criteria and enter an alternate keyword/code; try using a single short term that matches the desired procedure.
