

## Treatment and Referral Guidelines for High-Risk and Intermediate-Risk Pulmonary Embolism in Adult Patients

Date issued: March 8, 2024

---

**TO:** All SDO CNOs and CMOs

**RE: Pulmonary Embolism Response Team (PERT)**

**FROM:** Dr. Paul Ratana, Provincial Medical Specialty Lead – Emergency;  
Dr. Bojan Paunovic, Provincial Medical Specialty Lead - Adult Critical Care;  
Jodi Walker-Tweed, Provincial Clinical Service Lead - Critical Care, Emergency & Trauma

**CC:** PCLT, CPSP Executive, HSLC, MCLC, SDO Change Leads, HSI & CP, SH Coordinated Health Services; Pharmacy Leads, ERS, EMS, Lisa Merrill, Brandy Stadnyk, Rachael Porter

---

The provincially approved **Clinical Practice Guideline: Treatment and Referral Guidelines for High-Risk and Intermediate-Risk Pulmonary Embolism in Adult Patients** is being rolled out to establish practice standards and guidance for identifying and managing patients and for consulting the Pulmonary Embolism Response Team (PERT). This clinical practice will take effect immediately.

The guideline and supporting materials are available at [Shared Health Clinical Projects, Standards, and Guidelines](#) under the section: *High-Risk and Intermediate-Risk Pulmonary Embolism in Adult Patients*. The customized links to each document located on the website page are also listed below for those who wish to link directly to the documents:
