

Home Clinic Portal Release Notes

In preparation for the change below, **Home Clinic Portal** has been updated to support the alphanumeric solution, on **February 21, 2023**. Alphanumeric Family Registrations Numbers for new clients are not expected to be issued until March 2023. A communication will be provided when this takes place.

Update to MHRN field

Manitoba Health is updating the format of the Family Registration Number from six numerical characters to six alphanumeric characters (e.g. A12345). This change only affects **NEW** Family Registration Numbers, any current numbers will remain unchanged and Manitoba Health cards will continue to look the same as they do today.

When using an alphanumeric Family Registration Number in any system, the alpha characters *must be* entered with capital letters to maintain data integrity. The Family Registration Number will never contain French characters, special characters, and will not contain the letters B, I, Z, S, T, Q, G, and O to avoid any confusion between letters and numbers that may look similar on a printed form.

Client Details

Client: Orange, Mandarin
Date of Birth: 06-Feb-1932
