

N95 Fit tests

We would like to remind **ALL Provincial Travel Nurses** that a valid N95 fit test is required to work in any site across the province. **Tests expire after 2 years** or if that respirator is no longer available. Please check that your fit test is valid. If you require a new fit test, here is the contact information by region. You can also speak to your site manager about a N95 fit test appointment.

- **N95 Fit Testing:** Respirators in all service delivery organizations [SDO's/Regions] are standardized under **HealthPro contracts**. As such, all sites should have stock of standard N95 masks that are used provincially. Please ensure that your respective sites have your approved mask during your unit orientation day.
 - **Note:** Tests expire every 2 years or a major change to one's face (pregnancy, weight loss etc.)

NRHA- **Norma Dick**

Email: ndick@nrha.ca,

Phone: 204-670-3270

Nurses to contact and set up appointment during their 7 day stretch

Shared Health & WRHA

Phone (hospital sites): 431.277.1089

Phone (community sites): 431.277.4503
