

REVISED: PROVINCIAL CLINICAL GUIDELINE FOR PRESCRIBING INSULIN PUMPS

Date issued: August 23, 2023

Re: REVISED – Shared Health Prescribing Guideline for Continuous Subcutaneous Insulin Infusion (Insulin Pump) Therapy for Adult Patients with Type 1 Diabetes

Please be advised that the previously shared document, Shared Health Prescribing Standards for Continuous Subcutaneous Insulin Infusion (Insulin Pump) Therapy for Adult Patients with Type 1 Diabetes Provincial Clinical Standard has been revised. These revisions include:

1. Document has been re-classed from a **Clinical Standard** to a **Clinical Guideline**
 - a. [Shared Health Prescribing Guideline for Continuous Subcutaneous Insulin Infusion \(Insulin Pump\) Therapy for Adult Patients with Type 1 Diabetes Provincial Clinical Guideline](#)
2. We have added information on the process for a Primary Care Provider to become affiliated with the Manitoba Adult Insulin Pump Program (MAIPP) to access the MAIPP resources.

Effective Immediately:

- The newly revised Guideline and additional provider information related to this change can be found on [Shared Health Provincial Clinical Project Standards](#) under “Diabetes”.

Specific questions may be directed to insulinpumpprogram@sharedhealthmb.ca Responses will be compiled and information added to the provider FAQ.

We appreciate your support as we work to optimize the delivery of timely services in the province based on current, evidence-based practice.
