

Revised January 31, 2019

ORDERING CRP and ESR in SPECIFIC CLINICAL SITUATIONS (for Rheumatologists)

REMINDER: Ensure the information below is provided on the requisition for both tests to be ordered without delay or rejection.

- CRP and ESR tandem requests will be accepted and processed when ordered by a rheumatologist investigating systemic inflammatory disease.
- Laboratory accessioning staff will proceed with these orders when the ordering physician stated on the requisition is in the following list, and the clinical information specifies "**systemic inflammatory disease**"
