

NEW HSC IMMUNOLOGY REQUISITION

Date effective: March 1, 2021

Background Information:

The Immunology Requisition being revised contained tests for St. Boniface Hospital Immunology, Health Sciences Centre Immunology and Flow Cytometry. All three sections of Immunology will now have a stand-alone requisition.

Change in Test Procedure:

The following requisition is to be used starting Monday, March 1, 2021. Please remove all old requisitions from your site and replace with the new version which can be found in the [Laboratory Information Manual](#), or in your site EMR.

- **Immunology Laboratory Requisition (R250-10-21 V02)**

References/Resources:

For autoantibody testing please continue use

- **Immunology Autoimmune Laboratory Requisition (R250-10-85 V01)**

For Flow Cytometry testing please continue to use

- **Flow Cytometry Laboratory Requisition (R250-10-82 V02)**

More Information:

Please complete the Clinical Information/Diagnosis section of the requisition as the information may prevent unnecessary testing and or rejection of samples.
