

Attention Delivery Drivers / Personnel

We are currently preparing for a potential work stoppage amongst some community and facility support staff, including at this facility.

While talks continue, if a deal is not reached, strike action will begin Tuesday, Oct. 8, 2024 at 6 a.m.

This facility will remain open to receive deliveries during any labour disruption, however, you may experience delays due to picketing activities or reduced staffing levels.

If you are a delivery driver, please provide this notice to your manager to ensure they are aware of the potential for delay or disruption.

If your organization believes this work stoppage may impact your interactions with this facility, or if you require additional guidance around planning for ongoing essential services, please contact Richard Wood at rwood@sharedhealthmb.ca.
