

Intended Use for Lexidrug & UpToDate

Lexidrug™ is the new name for LexiComp™ which is the main source for medication reference resource for drug information, compatibility medical calculators, patient education materials, and more.

UpToDate® and Lexidrug™ tools are complementary clinical resources. Lexidrug is a more comprehensive drug database.

Intended Use:

UpToDate® 	Lexidrug™ 
Disease-focused clinical decision support	Drug-focused pharmacology reference
Diagnosis & management summaries	Drug dosing, administration & monitoring
Evidence-based treatment recommendations	Drug interactions & I.V. compatibility
Treatment algorithms	Detailed pharmacokinetics & formulation data
