

Lexidrug - Trissel's I.V. Compatibility

Watch “Trissel’s I.V. Compatibility” in [Clinical Modules](#) to learn how to access stability and compatibility information.

Check the compatibility of parenteral medications not listed in the Parenteral Drug Monograph.

Enter one drug and click “View compatibility.” The default compatibility result will display the solution compatibilities for the I.V. Drug searched.

Use the I.V. Drugs/Solutions search bars on the left to enter new drugs. New items will appear in the “Selected Items” field.

Click the X next to the name to remove an individual drug or solution.
