

# Lexidrug – What it is & How to Access

As of May 31, Micromedex is being phased out across Manitoba. Lexidrug, which is currently available, will become the main medication reference resource for drug information, compatibility, medical calculators, patient education materials, and more.

## What is Lexidrug?

Lexidrug is a source for medication information, medical calculators, drug interaction checker, and patient education materials in up to 20 languages.

## How to Access Lexidrug

### 1. Network Computer Access:

- a) Go to Start – Shortcuts – Lexidrug
- b) Open a new tab in the web browser  
(<https://shortcuts.sharedhealthmb.ca/>)

### 2. Direct access through link: [UpToDate Lexidrug](#)

3. **Remote Access/Personal Device Access:** Requires additional steps to set up and log in. See [Medical Staff - Health Providers – Lexidrug for Clinical Staff](#) for further instructions

## Up Next?

Communication on the transition from Micromedex to Lexidrug will be shared over the coming weeks.
