

What You May Not Know About Behaviours of Concern

Developed by the Behaviour Resource and Consultation Team (BRaCT), *What You May Not Know About Behaviours of Concern* is designed to provide foundational knowledge for all individuals who work in a health care related field within Manitoba and work with individuals presenting with Behaviours of Concern (BoC).

BRaCT is a specialized service team within Mental Health & Addictions, Shared Health that provides consultation, guidance, and support for individuals and teams affected by BoC.

In this training, participants will learn more about what Behaviours of Concern are, why they occur and what individuals can do to support people exhibiting these behaviours.

This training is designated as foundational competency level for:

- All individuals who work in a health care related field within Manitoba and work with individuals presenting with BoC.
- All individuals who want to learn more about BoC and are motivated to make some simple changes in their day-to-day work.

Where to access the training:

What You May Not Know About Behaviours of Concern is available on the [Learning Management System \(LMS\)](#). To access the training, please visit the LMS website by using the QR code and searching the title.
