

TRANSFUSION MEDICINE

NEW LMS Module “Blood Transporter”**Date issued: August 6th 2024**

Please be advised that the new Learning Management System (LMS) module “Blood Transporter” is now live. This module is available province wide. Its targeted audience is for those who pick up blood/blood products from the blood bank and transport to the requesting unit/area. The course should take no longer than 20 minutes to complete. Please forward to those responsible for providing education to these employees.

More Information:

The course can be found under the Clinical Skills Catalogue, and within the Transfusion Training category on the LMS.
